Race Transporter 6

From \$POA

Enclosed Transporters for the RACE or TRANSPORT professional.

Race Transporter 6 is the most technological and innovative development to date in large format enclosed vehicle transport.

Offering two length options, 6.0m and 6.5m Race Transporter 6 is quite capable of transporting wide race and sports cars.

Space is invaluable for creating a useful working environment for daily transport operations and creates a capable work facility at race meetings.

Along with a high standard specification, the range and scope of options for storage as well as operational features will appeal to those wanting to transport high value motor cars and Professional Racers requiring racing equipment designed to provide everything for a successful race season

Race Transporter 6 chassis design has wheels under the bed with a fully flat floor up to the sides. To manage bed height and maintain a low centre of gravity the 6.0m model has Tri-axle running gear with 10" wheels and low profile tyres. The 6.5m model features a 13" low profile tyre for extra durability.

Race Transporter 6 features a full LED trailer lighting system, this includes three LED interior strip lights providing excellent ambient light effect
